

(CHAPTER]

CHAPTER 1 sectionAAA

The prior examples redefined existing sectional unit title commands. This defines a new one, illustrating the needed counter and macros to display that counter.

1 BBB

The prior examples redefined existing sectional unit title commands. This defines a new one, illustrating the needed counter and macros to display that counter.

$$\begin{matrix} A^T & C & A \\ n \text{ by } m & m \text{ by } m & m \text{ by } n \end{matrix} = 1 \quad (1.1.1)$$
