## 1.1 Math Env

**Theorem 1.1 (Pythagorean theorem)** This is a right triangle, where  $a$  is the length of one of the legs,  $b$  is the length of the other leg, and  $c$  is the length of the hypotenuse. The Pythagorean theorem is then:

$$a^2 + b^2 = c^2 \quad (1.1)$$

## 1.2 Comment

Consectetuer id, vulputate a, magna. Donec vehicula augue eu neque. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas. Mauris ut leo. Cras viverra metus rhoncus sem.
